Green, her accuser, in the Third district court this morning to recover \$1,000 for personal injuries. She sets forth that he was the aggressor in the fight which occurred about a week ago. She says that Green struck her with his fist, pinched her and shook her violently, and that as a result, she has been sick and lame ever since.

In the complaint Green filed against Mrs. Kunkle in the police court, he charged her with striking him with a shovel. This she denies.

Under a contract that she "must make good in every house," Miss Margaret Severance, a young and pretty actress, who played a comedy sketch at the Empire theater two weeks ago, filed suit this morning in the city court against C. A. Hartman, manager, to collect \$150, the price agreed upon. In the suit, she asks for playing a week at Sylvan Park in Ogden.

They were married on Nov. 13, 1903, and have two children. She alleges that since they were married that he has never properly supported her. In the last two years he has furnished them with nothing to speak of, and she has been compelled to support herself. She asks for \$50 a month alimony, \$75 attorney's fees and the custody of her two children.

Her shoulder was dislocated, her arms bruised and she sprained the lower spine.

TRANSFORMING THE CANYON.

Judge Young's Plans for Summer Resort Being Realized.

Those who were fortunate enough to be members of the party that made the trip through Emigration canyon yesterday as guests of Judge Le Grand Young saw the beginning of a realization of the hope entertained by Judge Young for many years that some day the beautiful canyon would be dotted with cottages, summer homes, a big hotel and a resort 8,000 feet above sea level.

The new electric line is now in splendid condition, running 14 miles from Mt. Olivet cemetery to Point Lookout, a point where the new resort, hotel and cottages are planned. The party was taken there on a new car, Warship, under the direction of Le Grand Young, superintendent of the road. Judge Young owns along the route quarries where red and white sandstone is to be had in abundance. The output is brought to Salt Lake by wagon. Judge Young and the city own practically the entire canyon, and on Thursday the city decided to him 320 acres, all mountain with the exception of 10 acres upon which is to be erected a fine hotel. Seven miles up the canyon Judge Young has installed a electric plant.

At the end of the journey yesterday the party was served with a delicious luncheon, after which Judge Young explained what he hoped to accomplish in the beautiful canyon. The sentiment of all was happily expressed by Kenneth C. Kerr, who said: "Here's to the past, the present, the future." The past represented by the pioneers who crowded this great range and passed down the beautiful canyon in 1847; the present by the captains of industry and builders of municipalities, making possible such feats as this in the great west; the future by the fact when this canyon will be lined by cottages, summer houses of Salt Lake, when a beautiful hotel will grace the spot where we now are, the mecca of thousands.

The party returned to the city shortly after 5 o'clock.

DYER GETS COLD FEET.

Chicago Cattle Man Fails to Appear Against Colored Women.

Rather than appear against the three colored women whom he alleged had held him and robbed him two nights ago on Second West street between Second and Third South streets, C. W. Dyer, the Chicago cattleman, was given \$400 of the amount alleged to have been taken from him, and sent word from Ogden that he would be on his way to Kansas City this morning. Dyer's action resulted in the dismissal of the state charges against the women, Edna Forrest, Esther Neill and Jessie Mack, this morning, and under a city complaint filed immediately afterwards, they were given "bond" after pleading guilty to the charge of vagrancy.

Dyer reported to the police Thursday night that he had been stopped by a colored woman, and after she had been joined by two companions, he had been robbed of \$135. Officers later found \$30 scattered about the sidewalk where Dyer said he had been robbed, and also found the three women in the vicinity. The women were identified by Dyer, and admissions made by them pointed to the guilt of the Forrest woman. The women were held under \$1,000 bond and were to have had their hearing this morning. When the case was called Asst. County Atty. Bowman informed the court that the county attorney's office had been advised that Dyer, the complaining witness was now on his way to Kansas City, and would not be present to prosecute the women, and therefore asked for the dismissal of the complaint.

Following this action the women were arraigned under a city complaint charging them with vagrancy, and they were given until Monday to leave the city.

W. F. WHITE DANGEROUSLY ILL.

Tetanus Develops in a Wound at First Thought Trivial.

The condition of W. F. White, a well known cattleman, who was injured nearly two weeks ago by a steer in Ogden yards, was reported to be unchanged this afternoon. The wound was not thought to be dangerous at first, but tetanus developed about eight days after the accident, and in spite of all that could be done, the unfortunate man's condition has become very serious. Yesterday Dr. Richards, who is attending him, held out little hopes for his recovery, and a messenger sent to his wife and five children, who are in Idaho. He is lying at the home of his brother, John H. White, 268 North Second West street.

Cupid a Star Performer In Breaking June Records

With a new day's record for the issuing of marriage licenses, Dan Cupid, a driver of sharp darts, now holds the center of the stage of prosperity. It was last Tuesday that the matchmaker worked overtime. Thirty-three licenses were issued, which is one more than was ever issued before in one day by the county clerk.

This wave of prosperity is as encouraging to the business interests, as the building boom, and probably explains it to some extent.

In comparison with other years so far this June, the month of brides and roses, it is a banner month. For the first 17 days of this month, 329 licenses have been issued. In June of last year there were but 277 licenses issued. Two years ago the record was 222 for the month of June, and three years ago there were only 194 issued. June has the record in each year and the increase has been steady each year.

In this host of record-breakers are many classes of persons. From all appearances, it is a strenuous task for many of them to get enough courage to come to the marriage license counter. The society girl is the most timid, and seldom she ever comes. Last week a license was issued to a couple in an automobile which was driven up in front of the city and county building. The clerk was sent for to bring down an automobile.

The telephone is a favorite way to arrange for a marriage license with the delicate feeling couples.

"Will you deliver a marriage license

to my attorney?" said a scared voice over the telephone. This license was delivered. In several instances, the applications have been taken to the homes of the brides to be filed out. The middle aged man, whose friends declared that he was a confirmed bachelor, applied for a license last week. He admitted that he had been preparing for marriage much the same as he was preparing for death, as both seemed inevitable.

A young man came from Evanston, Wyo., last week with his bride. When they applied for a license, he found that his prospective bride was too young to marry, without the consent of her parents. After studying over the situation for a few minutes he decided to take his sweet heart to a hotel and boarded the train returning to Evanston. He drove 17 miles to a ranch to find her parents and then took them before a notary public to secure their consent. He was in Salt Lake again within 24 hours and obtained a license.

One license was issued last week to a couple who eloped from Davis county. The bride parents followed close behind, but too late. Two days later the couple returned and were forgiven. The introductory divorce law interfered with one couple the last week who sought to marry. So this wedding was postponed a year much to their displeasure.

Licenses have been issued to more Greeks, Austrians and Italians this month than ever before. They bring their interpreter along with them.

J. U. Edwards, St. J., is the deputy who can for the time being. He is performing four marriages a day on the average in the vault at the county clerk's office.

ly for an European trip. The rooms were beautifully decorated, and readings were given by the host and the guests of honor, the evening being most pleasantly spent. Pitt, Mrs. Lucile Hill, Miss Sadie Meyers, D. Bert Anderson, L. Hardie Meakin, and Ralph Meakin.

INSTANT DEATH OF RALPH HURST NEAR BEAVER

(Special Correspondence.)
Beaver, Beaver Co., June 17.—This morning at 6 o'clock the body of Ralph Hurst, a young man of this city, was found dead at the dam of the Beaver River Power company, where he was employed. About 2:30 a. m. an avalanche of rocks fell from the side of the mountain, and one of them passed through the top of the building where a man was sleeping with a companion, Vernon Valentine. Ralph was struck on the head, and it is supposed was instantly killed. The other young man was also struck on the head, and while he was unconscious for some hours, no serious consequences appear to have resulted.

DENY OLD BELIEFS BUT ARE ADMITTED

Presbyterian Preachers Entertaining Decidedly Liberal Views Are Granted Licenses.

New York, June 19.—Three young men, who frankly denied the old-time beliefs of the Presbyterian church, have been admitted as ministers of the faith at a meeting of the Presbyterian conference. The men, all graduates of Union theological seminary, were Archibald Black, brother of the Rev. Hugh Black, professor of theology at the seminary; John E. Sten, descendant of a family of Presbyterian ministers, and George J. Fitch, whose parents are missionaries in China.

The young ministers were rejected at the April meeting of the presbytery because of their daring views, and at another meeting in May their licenses were withheld because of the same reason. It was only after a long and bitter argument that they were accepted. They were put through a rigid examination.

"Do you believe," they were asked, "that sin was transmitted to all mankind by the passage of the apple from Eve to Adam in the Garden of Eden?"

"No," was the answer that all three made. "We interpret that part of the Scriptures as entirely allegorical."

"Then you do not believe literally the part of the Scripture relating to original sin?" asked the Rev. Dr. Walter Buchanan of the Fourth Avenue church.

"No," the applicants said. "We believe that man began with sin."

"Do you believe in the divinity of Christ?" was another question.

"We believe that Christ is the only Savior of mankind; we believe in His divinity, but we do not accept the literal scriptural interpretation of His birth."

"Do you believe in the scriptural narration of the resurrection of Christ?"

"No," they said; "we believe in His spiritual resurrection, but cannot accept the belief that He rose in the body, from the tomb."

"Not in the flesh. We hold that the resurrection of Lazarus was a spiritual resurrection."

A lively session of balloting followed the examination, which lasted from 2 in the afternoon until 8 at night. Some of the conservative ministers were horrified at the daring views held by the youthful trio. The presbytery declared that the modern trend in the Presbyterian church was to allow much more liberality of thought than was formerly the case.

The balloting was upon each candidate separately. Mr. Black was the first. He was admitted by a vote of 54 to 36, and was warmly applauded by the liberal ministers. Mr. Sten then was accepted by a vote of 45 to 19. Mr. Fitch was granted his license by a vote of 38 to 15. A few of the more conservative clergymen declared that there might be a trust.

Union theological seminary is in control of the presbytery, they asserted, "so these young men were admitted. But there may yet be something said in disapproval of their too modern views."

WHEN AN OSTRICH KICKS.

"The only safe place in the neighborhood of a kicking ostrich is just behind it," said a zoo keeper. "An ostrich can kick a mule to death, but its kicks are delivered at an angle of 45 degrees. Within those 45 degrees, right about the 'pope's nose' of the bird, there is absolute safety. On the ostrich farms of California, when the herds are being driven, you will always see the ostrich boys holding on to the tails of bad kickers. The kickers tear along, and their scaly legs shoot out like piston rods, but the boys in the shelter of the pope's nose are safe."—New Orleans Times-Democrat.
